Objective:

Results-oriented and highly motivated Computer Science graduate with a strong foundation in software development, data analysis, and problem-solving. Seeking a challenging position as a Software Engineer to leverage my skills and contribute to innovative projects in a dynamic team environment.

Education:

Bachelor of Science in Computer Science *University Name, City, State Graduation Date: Month, Year*

Relevant Courses:

- Data Structures and Algorithms
- Object-Oriented Programming
- Database Management Systems
- Software Engineering
- Operating Systems
- Machine Learning
- Web Development
- Computer Networks

Skills:

Programming Languages: Java, Python, C++ **Web Technologies:** HTML, CSS, JavaScript, React **Databases:** SQL, MongoDB **Frameworks:** Spring Boot, Flask **Tools & IDEs:** Git, Visual Studio Code, IntelliJ IDEA **Data Analysis:** Pandas, NumPy **Machine Learning:** scikit-learn, TensorFlow **Operating Systems:** Windows, Linux **Agile/Scrum:** Jira, Confluence **Problem Solving:** Data Structures and Algorithms **Communication:** Strong written and verbal communication skills **Teamwork:** Collaborative and adaptable in team environments

Projects:

E-commerce Website *Designed and developed a full-stack e-commerce website using React and Node.js, allowing customers to browse products, add items to the cart, and complete secure online transactions.*

Chat Application *Built a real-time chat application using WebSocket and Java, enabling users to exchange messages in real-time through a user-friendly web interface.*

Machine Learning Fraud Detection *Implemented a machine learning model in Python to detect fraudulent transactions in a financial dataset, achieving a 95% accuracy rate and reducing fraud-related losses by 20%.*

Personal Portfolio Website *Created a responsive personal website using HTML, CSS, and JavaScript to showcase my projects, skills, and professional experience.*

Professional Experience:

Software Development Intern *Google, Mountain View, California Internship Duration: May, 2022 - August, 2022*

- Collaborated with a cross-functional team to develop and maintain software solutions.
- Assisted in designing and implementing new features and enhancements.
- Conducted code reviews and participated in Agile development processes.
- Resolved software defects and improved application performance.

IT Support Technician *Bank of America, Charlotte, North Carolina Employment Duration: May, 2023 - August, 2023*

- Provided technical support to end-users, resolving hardware and software issues.
- Installed and configured operating systems and software applications.
- Managed computer networks and ensured data security.
- Assisted in developing and implementing IT policies and procedures.

Awards and Honors:

- Dean's List, University of Maryland, 2022

Professional Memberships:

- Member, Association for Computing Machinery (ACM)

Languages:

- Fluent in English (written and spoken)
- Conversational proficiency in Spanish
